This will certify that

completed the Big Sur International Marathon, a 26.2 mile footrace.

CONGRATULATIONS!

As a finisher of the course along Highway One, you are now a member of the Big Sur International Marathon Club. Membership is limited to those runners who have finished the distance. You have accomplished a major athletic feat; very, very few people in the world can say they have completed a marathon.

You can say you ran the best.

In witness whereof, I have set my hand this 30th day of April, 1995.

A handwritten signature in black ink, appearing to read "William B. Burleigh".

The State of the Race, 1995

All marathons are unpredictable because we are dealing with two unpredictable elements: nature and human beings. That is a great part of the appeal of the event and why many of us are involved. It's an adventure.

But this year was too much. Not just unpredictable but volatile, chaotic and constantly changing.

As you recall, we suffered the worst flooding in our history — \$500 million in dam-

ages in our County alone — and six weeks before the race the Carmel River Bridge, about 200 yards from the finish line, washed away. We were left with a 12 foot-wide temporary combat bridge that could not handle both runners and traffic.

So we had two alternatives: give the race exclusive use of the bridge, thereby closing down the only highway on the California coast, or moving the Marathon finish to the other side of the bridge. The latter solution would require bussing 7,000 runners, volunteers and walkers over the bridge — which we figured would take about three weeks.

Caltrans, our permit authority, originally said no to closing the bridge for our use, but after 5 weeks of begging and groveling, involving literally hundreds of phone calls to Sacramento, San Luis Obispo, Salinas, and locally, plus numerous meetings with community leaders, politicians and state officials, they blinked.

Finally, at 10:30 on the Wednesday before the race, they said we could have the bridge for 3 1/2 hours, from 9:00 to 12:30, with numerous conditions. Caltrans meant well, and they wanted the race to happen, but they aren't runners and didn't fully understand our event. We had to cover all the metal webbing on the temporary bridge with plywood to keep runners from falling through (\$2,300 labor cost alone!), no more than 200 runners on the bridge at once (even though it was rated for 68,000 pounds and we couldn't have put more than 30,000 pounds on the bridge) causing us to stage 8 wave starts for the KCCN 5K, and we had to give up the bridge for a mini-caravan at about 11:00 a.m..

(We established a temporary certified by USAT&F finish line that handled 189 runners in the nine minutes we lost the bridge.)

Mom Nature must have gotten upset with us. After she saw that we solved the bridge problem she created, she said, "Well, if they are so smart, let's see if they can handle a little more rain."

And so it rained and rained all day Friday and Saturday. Our big Expo tent at the Hyatt flooded, damaging a lot of equipment and concession items. More importantly, the pouring rain, plus a prediction from the National Weather Service that we would have 6 to 8 inches (!) of rain Saturday and Sunday, kept away our 5K runners, and participants in the Walk. We expected to get 500-700 Saturday and Sunday sign-ups for the 5K, but we only got 320. For the first time, the Walk did not sell out —we had 1,400 instead of the expected 1,500.

On Saturday night, about 8:00 p.m., I got a cell call from our Marathon Flats Chair, Phil Korchek. Our grassy field had been destroyed by the heavy equipment for the new bridge construction. He said he was up to his ankles in mud and the tents at the finish area were inaccessible. He would put his supply of wood chips in the medical, command and runner food tents, and transfer the awards to the Crossroads Shopping Mall, then abandon the tents for hospitality, message, volunteers, 5K, Walk and Concessions; \$8,000 rental cost now rendered useless. The runners, walkers and volunteers would have no finish area.

Then one of our Board members, Karen Ferlito, located 125 yards of wood chips in the Carmel Corporation yard. Granite Construction moved them for us (free!) and lots of volunteers worked with buckets and rakes well into the night to make the area useable. Hallelujah! (RGW, Inc., bridge contractors, had gone out of their way to move their equipment and supplies so we could use the area.)

The bottom line, however, is that the dismal pre-race weather, for the second year in a row, reduced the money we have left over for charity by many thousands of dollars. The good news is that Nature finally figured we had enough rain, and gave us a race day without so much as a sprinkle. The National Weather Service was, happily, completely wrong. We had excellent weather for running — temperature in the low 50's, no wind and no rain.

Not good weather for scenery, though. You might as well have been running the hilly roads of Hampstead Heath in London: fog obscured our spectacular views. You have to take our word for it — we really do have a beautiful course.

The weather didn't affect the numbers for the Marathon — as you know, we commit to 26 miles early, and after investing over 1,000 miles in training, we run. As a matter of fact, we sold out, plus some, with a record total of 3,218. There were 468 packets left over, so we figure about 2,750 started. Of those, 2,339 finished, which is our usual high 85% of finishers.

Here is one of the most rewarding parts of our events. As usual, we "sold out" on our need for volunteers weeks before race day. Our 1,800 volunteers keep coming back every year; 47% were returnees this year! We doubt if any other sporting event can make such a boast.

Saturday our volunteers went to bed on a rainy night, were told we would have 6 to 8 inches of rain on race day, and they were faced with getting up at 4:00 a.m. and performing hard physical labor in setting up the start, the course and finish area, under miserable conditions. And the only compensation was a T-shirt and finish area party.

So they stayed in bed, right? No way. They all showed up again, as they always do, smiling, cheering in the cold morning, no complaining, just giving their time and energy to help you enjoy our events. No wonder we get hundreds of letters every year, praising our dedicated volunteers.

This was our most international race yet. For the last nine years both the male and female winners were U.S. citizens. This year the male first place, Juan Salvador Gonzales, and third place, Horacio Cabrera, were citizens of Mexico, and second place male, world-class marathoner Hugh Jones, was from England. (Hugh liked the race so much he wrote an article for the British edition of *Runner's World*). Juan's 2:20:48 was our fourth fastest time, and the fastest non-Brad Hawthorne time. Hugh Jones passed Horacio for a second place time of 2:22:27, with third place arriving at 2:23:04..

On the women's side, two of our favorite elites, both prior overall winners, duked it out for the last two miles, with third-time(!) winner Kim Goff hanging on, just barely, for a 2:48:14 time. Just 11 seconds ahead of the delightful Jeannie

Urnness-Wokasch, '92 winner. Jeannie still had enough spunk left over to do her traditional cart-wheel at the finish line. As a prior winner, Kim took home \$6,000, United Airlines ticket, and lots of other swell things. (Her husband told her if she won they would use the money for a new driveway — so her mantra for 26.2 miles was "driveway, driveway, driveway.")

Jeannie's 11 seconds cost her \$3,000, but she still said she loved our race —she even wore our T-shirt when she collected third place at the Vancouver Marathon a week later!

Male and female purses are equal.

Mike Dove, last year's winner of the fastest Monterey County Runner Division, was running hurt, so everyone figured that Marc Lieberman, a Salinas physician, would finally beat him. Not to be — Mike finished almost five minutes ahead, at 2:50:00.

Leisa Nichols of Pacific Grove, who finished in 3:30:37, set a new course record for the division by over two minutes, and will have her name inscribed on the Nancy Lesko Memorial Trophy, as Monterey county's fastest woman. Mike repeats as our best. Three-peat, Mike?

As usual, our naming contest was a delight. As you recall, we named our new cold-weather division, an attempt to recognize those poor souls (soles?) that trained for our marathon in an area that suffered in excess of 24 inches of snow. As you recall, we printed some of the entries in our Program and the confirmation sheet. Herewith some later entries:

"Fugueing Cold", (Wendy Patterson, Toronto, Canada); "The Frozen Few", (Douglas Cunningham, Culver City, CA); "Coldtimers", (Bob Fox, Los Osos, CA); "Mushers with at'etude", (Nancy Gilmore, Highlands Ranch, CO); "Faust Bite Division", (Chad Bennion, '94 winner of BSIM, Murray, Utah); "The Ice Man Runneth", (Dan Buckley, Kings Canyon National Park, CA); "Climatically Challenged", (Ron Eastman, Monte Sereno, CA); "Brass Monkeys", (Russell Egers, Stanford, CA.); "It's Sonata so Warm", (Debbie Trester, Idaho Falls, ID); "Snowingrin", (Richard Kaplan, Chicago, IL); and "Ice Bachs", (Mark Windland, Lafayette, CA). First runner up and almost winner: "Snopus No. 1", (Thomas Greenwood, Berkeley, CA).

Photo: Richard Davis

The winner, henceforth immortalized, and a part of the history and lore of BSIM, local runner Thomas Flynn of Monterey: "Mozarctic."

(About a third of you return every year, so you can start working on next year's naming contest: the 4.5 million dollar, federally funded, 40 foot wide uninspired new concrete bridge over the Carmel River. As always, a classical music connection gets additional weight.)

If you saw our TV show this year, you'll agree it's our best ever. We have added an additional 30 minutes of just you, scenery and music, plus the ESPN segment, plus a delightful 12 minutes of creativity by Warren Masten of Palo Colorado Productions. Send \$24.95 to us for your copy of the one hour 20 minute VHS tape. You'll love it.

The most amazing phenomenon has been growing around our events: voluntary, unsolicited contributions to the Marathon. It began 9 years ago when Dr. Ben Jones of Lone Pine, CA gave me a \$100 bill when he crossed the finish line (it went to the Big Sur Fire Brigade) and he has repeated every year since. Then Larry Wilson, a San Francisco attorney, started the same practice five years ago. In 1994 Larry gave us \$500, which we used to cover five marathons in Europe and distribute 8,500 entry forms abroad.

This year, four of our Grizzled Vets (those who have run all our races) donated \$1,000 each! Lee Hicks, who wrote the moving letter in our program this year, Larry Wilson - yes, the same

guy! - Hugo Ferlito, a Monterey dentist and BSIM Board member (Awards), and Don Matthias, a physical therapist from Victorville, CA, have all increased our ability to help others and improve the quality of what we do for you.

But the list doesn't stop there: Phil Lum, volunteer and aid station Captain, has donated \$200 each year for six years. Dr. Glenn Millar and his wife Christine gave our events \$400. Fashion Streaks contributed \$250 cash, again unsolicited. Cathy Smith gave us \$100, as well as Sybil Chappelet. Other cash donations, from 26 individuals totaled \$606.00.

That's a grand total of \$5,756.00! We suspect (indeed, boast!) that no other marathon, or sporting event for that matter, enjoys such generous loyalty from its participants.

EEEE

The biggest complaint we had this year — in fact, about the only complaint we had — was the missing music on the course. Explanation:

The paper and TV said to expect six to eight inches of rain Saturday night and Sunday. Our \$120,000 Yamaha concert grand piano for Bixby Bridge costs us \$800 to move from San Francisco, plus \$500 for insurance — and it can't sit in rain. So we canceled it. Then we called all our other music groups and offered them the option of playing — but we had to know in order to cancel \$700 buses for them. The perceptive will note that the only groups that played — Wild Coast

Brass Quintet and Community Band — had no wooden or string instruments. And I Cantori needed electrical amplification — out of the question.

This was the only year in 10 that we had rain predicted, and it's not likely to happen again. We even canceled our helicopter!

EEEE

Every year I like to repeat here some of the things that made us laugh. On our "report card" we ask you why you chose Big Sur. Steve Cichowski, Kansas City, replied, "Friends suckered me into it. Bet me \$1.00 I couldn't do it. I won!" John Hopkins, San Diego, explained, "My wife is making me do this."

In response to the demographic questions on the entry form, Brad Evans of W. Lafayette, Ind., said his preferred sports drink was beer and preferred sport shoes were "2".

On our entry form we ask where you heard about our race. Steve Simons, Santa Monica, said "Men's Room, Palisades Park"; Debbie Cairns, Sacramento, said, "Damn husband"; Willy Ray Garratt, Del Mar, CA, checked in with "Been there...need more pain!"; Hugh Peterson heard about us from Iraqi gun runners, and Monika Perez found out "standing by the water cooler."

At the start line, at about 6:55 a.m.,

This needs no explanation except to tell you it's the top of Hurricane Point.

The new and the "old" Race Directors, Joe Sweeney and Bill Burleigh

George Hirsch, *Runner's World* publisher, asked me if I could take his warm-up suit (Frank Shorter goretex, no less) to the finish area. "I'll take them," said an attractive young woman in a new convertible. Conversation about three hours later at Marathon Flats: George: "Did your friend give you my sweats?" Me: "My friend? I thought she was your friend!" (They turned up about an hour later.) Speaking of *Runner's World*, we are delighted to report that *Runner's World* has signed on as a Gold Sponsor for another five years. Translation: the future of the Big Sur Marathon is guaranteed.

When I turned over 10 year's worth of files to my successor, Joe Sweeney, I said that he would be appalled at my filing system. He said, "You have a filing system?" You see, I'm not very well organized, and, uh...I guess you had to have been there.

EEEE

Remember those tiny boxes on the entry form where we pried into your personal life and habits? The facts therein are called demographics, and we use them as part of our marketing with potential sponsors. Here are some of the totals:

Our marathon may have the highest percentage of female participants in the world; 1014 out of 3,218 - 32%. Our percentage of returnees is probably also the highest anywhere: 925 out of 3,218 — 28.7%.

It's common knowledge that marathon

runners are well educated and well-off. Eighty-six percent of our runners that responded (2,013 out of 2,340) have a college degree, 987 have a post grad degree —and 53 percent make over \$50,000.00 a year. (35 percent, 788 runners, make over \$70,000.00 annually.)

These figures are understandable. Anyone who has the dedication and discipline to run 1,000 miles in training, anyone who is that goal oriented, is bound to succeed in other areas.

I don't know why, but every year we have a lot of runners who choose Big Sur for their first marathon. This year it was 29 percent, 933 out of the 3,218 signed up.

One of our sponsors, Gatorade, enjoys 63 percent of the sports drink market in our events, with Exceed in second place with 10 percent and Powerade with four percent. (This was our lowest response, however: only 1,501.)

Nike took first place in sports shoes, with 41 percent (893 out of 2,196 responding) and our official shoe, Asics, was second with 507, or 23 percent. Saucony was a distant third with 338, or 15 percent.

Finally, 56 percent of our runners responding are professionals, (1,356 out of 2,402), and another 15 percent are into management.

As you can see from these figures, we are an ideal market. If you are in business, or work for a major national corporation, ask us for our "Sponsor Package" - which includes a six-minute video.

EEEE

Well, that's it for '95. We were mightily tested this year, and survived. We feel that if we can make it through a year like this, we can last forever. Maybe we should start selling life memberships!

Happy Feet, and I'll see you in '96!

Mary Tarin, Atlanta, GA

"Thank you volunteers, for your love and support and your smiles, too!"

"If you run Big Sur once, from that point on you are addicted."

**John Rooke,
Sacramento, CA**

Dear Judge Burleigh:

Three years ago I watched as my husband and thirteen-year old daughter ran the Big Sur 5K for the first time. Two weeks later I was diagnosed with melanoma and had surgery to remove the tumor. Later that year I had my lymph nodes removed because it had metastasized. Two years ago I watched as my husband and twelve-year-old son ran the 5K. A month later I was told that the melanoma had spread to both my lungs. During that year I had a large part of my left lung removed and half my thyroid because of metastases. Last year I didn't even watch the race because I wasn't feeling well after my melanoma vaccine and drug treatments.

Merrill's Cancer Wellness Support group members surprised her at the finish line

Through all of this I've continued to exercise whenever I felt well because it's helped me keep my sanity through some very difficult times. Right now I'm feeling great and last month decided that this was my year to run the 5K. I've never been a jogger but with my husband's encouragement I've given it a try and to my surprise have been able to do it. I may not have been one of the fastest runners in the 5K this year but I was certainly one of the most thankful ... celebrating life all the way! Thank you for making it possible.

Sincerely,

Merrill Manke

The State of the 5K

The 1995 KCCN 5K experienced many changes. Much of the previous year's race strategies needed to be reviewed and redesigned to accommodate possible changes to the course due to inclement weather. The race course itself was not finalized until 5 days before the race was to take place, largely due to the fact that the Carmel River bridge was washed out during winter storms and the temporary Bailey bridge needed to be modified to insure complete safety for our participants.

Also much of the region from which we draw our main body of runners was totally devastated by flooding this year. Many would-be runners were spending their free time digging their homes out of mud, and to make matters worse the two days leading up to race day were very wet as well.

But aside from all the adverse weather conditions, on race day we had some 1,350 runners registered, including an excellent group of elites. As so eloquently stated by Mark Winitz, "A look at the top times tells you that this isn't your typical flat and fast 5K loop. In fact, the scenic course offers something for just about everybody. The first mile is an uphill climb on Route 1 alongside artichoke fields. Mile 2 is along a flat dirt trail that overlooks Carmel River Beach and passes near ancient Esselen Indian burial grounds and a camp site where Gaspar de Portola paused during his early California explorations."

This year's event was also highlighted by the appearance of two special guests. Joan Benoit Samuelson presented a running clinic for children at our expo as well as sharing responsibilities as our official starter. And Frank Shorter helped present the awards at the packed house of excited and enthusiastic participants.

All things considered we had another very successful race with more schools and student participation than ever, which is one of our major goals. Next year will be the 5th running of the KCCN 5K, which we expect to be the largest in our brief history. We will endeavor to break the 2000 participant barrier and are very excited about our possibilities. Weather permitting.

I would like to extend my special thanks to all the volunteers and the support of the community at large. Their efforts make this race possible, particularly this year. All the long hours of pre-race preparation is incredible. They come from as far away as South Carolina, some actually living on the course itself, and ask for nothing more than seeing the smile on a participant's face as they streak across the finish line.

"Although there are countless magical, miracle race tales, none topped the 5K experience my 31 students were afforded this morning. They had neither application funds nor appropriate shoes. Through the kind hearts of Seaside and local media folks, we made it. Without your angels Steve Loftus and sweet Susie, we never could have."

We had two new events for 1995. The Power Walk is a 21 mile non-competitive walk from Andrew Molera State Park to the Finish at Rio Road, Carmel. Of the 102 athletes registered, 89 walked on marathon day. Some were racewalkers, and others

maintained a 15 mph pace for the 21 mile event. The second new event is the Relay. The Big Sur Marathon apologizes to our Relay Runners. We are excited about the great interest in the Relay. The turn-out was exceptional. Unfortunately, our Relay

Database was not set up in a manner to reflect all participants. Please note the different divisions: Male, Female, Coed, Masters Female & Coed. Next year, we'll get it together. T.C. signifies Team Captain.
